Docket No. 98N-1265

Food and Drug Administration

5600 Fishers Lane

Rockville, MD. 20857

JUN -9 P2:15

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS:

I greatly depend on individually prepared hormones as do many other women with endometriosis. Why would the federal government restrict patient access to the best medications for patients like us? Shouldn't patients needs be top priority not the desires of big drug companies?
